Rajender Reddy Garlapally

Senior Software Engineer

rajender-reddy-garlapally.vercel.app rajenderreddy-fullstackdeveloper

Professional Summary

Seasoned Full-Stack Developer with 8+ years of experience in building high-performance mobile (React Native) and web (React.js) applications. Skilled in creating scalable, user-focused solutions with clean architecture and responsive UI/UX. Proficient in backend development using Node.js, with strong command over AWS services like Cognito, Amplify, DynamoDB, and S3 for secure, cloud-native apps. Adept at CI/CD, automation, and cross-functional team collaboration. Passionate about modern tech and AI tools (Cursor/ChatGPT) to streamline workflows, boost productivity, and drive innovation.

Work Experience

Senior Software Engineer

OSI Digital Pvt Ltd. • Hyderabad, India — **Mar 2024 - Present**

- Leading multiple teams across projects to develop scalable web and mobile solutions using React.js, React Native, and AWS.
- Engaged in sprint planning, CI/CD setup, performance tuning, and delivering high-quality UX across platforms.
- Mentoring developers, reviewing code, and collaborating on cross-functional initiatives for end-to-end product delivery.

Senior Software Developer

UR.Life • Hyderabad, India — **Sep 2022 - Feb 2024**

- Led the development of web, mobile, and TV applications using React Native, React.js, and backend integrations.
- Participated in sprint planning, architecture discussions, and implemented CI/CD pipelines for deployments.
- Handled AWS services, code reviews, and collaborated on UX enhancements across platforms.

Software Developer

Gajju Technologies Pvt Ltd. • Hyderabad, India — **May 2020 - Sep 2022**

- Worked as a Front-End Developer on both React Native and React.js projects for web and mobile platforms.
- Took ownership of sprint planning, UI implementation, and code reviews as a lead frontend developer.
- Collaborated with cross-functional teams to deliver scalable, responsive applications.

Mobile Application Developer

Norm Software Solutions • Hyderabad, India — **May 2018 - Apr 2020**

- Started my career as a Junior Developer, building mobile applications using Swift and React Native.
- Contributed to designing UI screens and implementing app features across multiple internal projects.
- Collaborated closely with senior developers and QA teams to deliver stable builds and timely releases.
